

ANNUAL REPORT FOR THE YEAR 2025-26

CHAIRMAN'S NOTE

Dear Stakeholders,

As many of you may be aware, GODHULI has been educating thousands of underprivileged children and mainstreaming them to government schools over the last 30 years. We have also been facilitating Vocational Training in popular Computer Courses, National Teacher's Training, and Sewing Courses. A large number of our beneficiaries have now settled well in life and thank Godhuli for having laid their foundation in the early years.

We completed three decades of our existence this year.

While new centres at Palam Gaon and Vikas Puri Basti (premises provided by Rotary Club Janak) started last year settled down, we also facilitated a Beautician Course for around 15 young women of Mirabagh/Jwala Heri area, with most of them beginning to earn even as they learnt. In another first, in collaboration with Rotary Club Janak, we commenced Adult Education at the Nangloi centre.

In terms of numbers the total number of students educated in our centres during the year stood at 580, with another 57 middle and high school students provided with tutorial education. Adding students of Adult Education, Sewing classes, and Vocational Education, Godhuli managed to positively touch and improve around 700 lives in the urban slums of Delhi NCR!

The cost of operations of Godhuli continues to be frugal wherein we have been able to limit the cost of one year's education of a child (inclusive of mid-day snacks, uniforms, books, bags, excursion trips etc) to around Rs.8,000 - 10,000 per child. This is possible only as our Teachers happily work against a modest honorarium and our Governing Body members contribute their time and resources without taking any compensation from the Society.

Our main source of funding comes from a handful of Corporate/Institutional donors such as Container Corporation of India (CONCOR) and IRCON International (both CPSEs under Ministry of Railways), Daya Gopal Amrit Trust, Bani Jagtiani Trust, Rajdhani Flour Mills and Manibhai and Brothers Charitable Trust, Ms Gateway Distriparks, Ms Infozech Software, Ms Ammar Frozen Foods and Ms Current Technical Literature to name a few. This year one new Corporate donor namely Ms HB Estate Developers came forward to help Godhuli, which was indeed quite encouraging for all of us. Besides, various good samaritans from the public including quite a few personally known to the Governing Body members, have also been contributing over the years. However there was a setback this year, as both the Rly CPSEs could not sanction fresh grants due to certain reasons beyond their control. Given our ongoing programs and future plans, this is a matter of concern and we need to re-double our efforts to arrange friends from other well meaning organizations and individuals.

GODHULI'S Annual Report for 2025-26 is placed below for your perusal. There has been a change in your Governing Body during the year, with four (4) new members belonging to the teaching community and bureaucracy joining us.

We invite you for being a part of our small but satisfying initiative by contributing in any manner – your time, resources or money as deemed appropriate. This will inspire us to work more spiritedly and also empower many more.

Should you be interested, please get in touch telephonically with our Office assistant Sh Prem Sagar (cell no +91-9871662387 or land line +91-11-45102066) or by email at info@godhuliindia.com.

We earnestly look forward to hearing from you.

Dr. Y. P. Anand Founder

Chairman, Godhuli

1. Introduction – Our Objectives

GODHULI is a Charitable Society which was constituted in May 1994 and registered thereafter on 15.09.94, under Societies Registration Act 860,

While Article 45 of the Constitution of India, (since amended vide Constitutional Amendment No. 86 of 2002), and the Right to Education Act 2010, make it incumbent on the Government to impart free and compulsory education to all children up to 14 years of age, many children continue to be deprived of this fundamental right to this day. The Society has aimed to fill this gap and take up projects for the basic education of deprived street/slum children not only in the age group of **six** and above, but more importantly four year olds onwards, who are ready to attend school, and prepare them for being mainstreamed into Govt. or private schools.

3. Teaching Philosophy

Teaching at Godhuli schools continues to be very interactive using practical methods. Students are learning while getting introduced to various ideas and subjects playfully and with enthusiasm. All efforts are made to increase their desire to learn in this way while at the same time preparing them scholastically and providing them with good groundwork to enhance their abilities to learn in their later years. In addition to regular teaching, the children are also taught about their surrounding environment, likely pollution of air and water, prevention of the same, cleanliness and good manners. They are also introduced to basic good habits and moral duties as also to keep themselves strong physically, mentally, socially and spiritually.

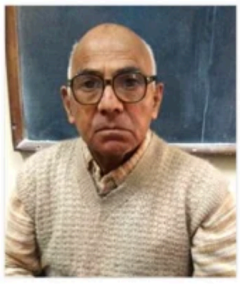

Godhuli's basic motive is to help the students develop their inherent talents as also to identify their own hidden abilities. Special efforts are also made to interact with the parents so that the teachers get first-hand information about the normal activities of children, as also identify reasons for their occasional absence. These meetings also help the teachers to evolve ways to wean these children away from mischievous activities. The school visits also help parents get sensitized and motivated to the need for children to continue their studies. The basic idea is to initiate various efforts leading to their eventual progress in life.

The provision of Tutorials to students of Classes VI to X - also from deprived sections and many who are ex-students of Godhuli - has also been continued during the year to supplement the scholastic efforts at their schools. Other than classes to cover the courses, the children are routinely made to participate in quiz competitions and other innovative scientific experiments to make their learning even more joyful.

The students while being given completely free education are also provided with uniforms, school bags, books, stationery and other study material free of cost. Periodic Medical checkup including eye testing and provision of spectacles is also arranged in various centres.

Summer camps are also held in the Schools in May and June, when other schools normally close, and cover various activities of learning, reciting rhymes, colouring, chanting mantras, physical activities of dancing, playing with toys, storytelling etc.

It is a matter of satisfaction that the students who have undergone these computer courses have been able to get gainful employment. They are being regularly guided towards a respectable and bright future.

All expenses for these courses are met by Godhuli. A nominal refundable security deposit is however taken from the beneficiaries for ensuring their commitment towards the course.

During the year 2025-26, the 18th and 19th batch comprising of nine (09) and six (06) students respectively were successfully trained and certified in ‘Certificate in Advanced Computer Software (CACS)’ and ‘Diploma in Additional Financial Accounting (DAFA)’

This prompted Godhui to start the first batch of the one-year Nursery Teacher's Training (NTT) courses for 10 students in August 2016. Five batches have been completed so far. All expenses of the courses are borne by Godhuli. It is noteworthy that as a policy, Godhuli sponsors the NTT course for our in-house teachers so that they too get more qualified and are able to impart education in a better manner to the children studying at our centres.

E) Tutorial Education:

Noticing the fall in the academic levels of children in Meera Bagh slums owing to cessation of conventional school during the Covid period, Godhuli commenced Tutorial Education in December 2021 with the help of a donation from a U.S based Indian philanthropist for children of Classes VI to IX. Around 45 students were initially enrolled in the programme, which entailed classes in the three traditionally tough subjects of English, Mathematics and Science. The performance of these children in their school assessment was regularly monitored, and progress was seen to be quite encouraging.

Encouraged by the results, Tutorial Education was continued with the help of donations from other donors. Currently Rajdhani Flour Mills Ltd. is supporting this initiative. In the year 2025-26, 57 students of Classes VI to X were enrolled in the programme.

4.3 Kalyanpuri Centre

Location: Basti Vikas Kendra, Near Dhobi Ghat, Kalyanpuri, Delhi – 110091

The school has been functioning satisfactorily since November 2015 when Delhi Govt. had allotted two rooms in the local Basti Vikas Kendra in a cluster of slums .

Children in the age group 4-6 years are taken in KG class and prepared for taking up further school studies.

Immediately after the school opens for a new session, the teachers regularly visit the locality households to motivate/bring the children to school.

Mainstreaming

32 children were enrolled during the year 2025-2026. Of these students 16 have been mainstreamed into conventional schools both nearby and in villages, 06 have been promoted to next class and another ten have been retained in the same class due to being of lower age.

4.4 Palam Gaon Centre

The Palam Gaon centre was being planned since long, but was deferred due to the Covid outbreak. The Centre started functioning from July 2024 in rented premises at WZ-24 A, Adarsh Gali, Palam Village.

The capacity of the school was kept at 50 in two sections. The smaller children (up to 4-5 years of age) are in the KG-A section, and the older ones in KG-B section. KG-B has children of varying ages, some upto 10-11 years of age who require special, and separate teaching. However, no children desirous of admission are turned back, although this created some problems.

Although enrolment of upto 45 children took place within the first 2-3 months, there were regular drop-outs resulting in an average enrolment of 32 students and daily attendance of between 20-25.

The school celebrated Independence Day, Republic Day, and Teachers Day with great enthusiasm.

All 32 children were mainstreamed either into MCD or private schools. It was a matter of satisfaction that some of these children were of the age group 8 to 10 years, who had stopped going to school for a variety of reasons. Their re-admission was a culmination of dedicated efforts of the teachers to not only bring them to the level of their class, but to also counsel and motivate their parents to put them back in school.

However, Godhuli were forced to close the school from 10th March 2026 as the landlady did not allow us to continue using the premises. Alternate premises are being identified and it is hoped that a Centre will be soon functional in the area.

This premises has been divided into two classes, KG-A (catering for children in the age group 4 to 5 years) & KG-B (for children in the age group 5 to 6 years).
